

KAVYA SRIVASTAVA
B.Tech. - Computer Science & Engineering
Ph: +91-6388079527
Email: kavyasrivastava8414@gmail.com
Lucknow, Uttar Pradesh, India - 226005

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in full-stack software development, problem-solving, and building scalable applications using Java, MERN stack, REST APIs, and databases. Through hackathons and real-world projects, I have developed the ability to transform ideas into reliable technology solutions. I aim to contribute to Josh Technology Group's vision of solving complex business challenges through innovative software while enhancing my engineering skills, taking ownership of impactful products, and growing alongside the organization.

KEY EXPERTISE

Java Programming Data Structures and Algorithms Object-Oriented Programming Full Stack Web Development React.js
Node.js Database Management Systems MongoDB SQL Problem Solving Software Development Git and GitHub
Frontend Development Backend Development

EDUCATION

Babu Banarasi Das University, Lucknow B.Tech. - Computer Science & Engineering CGPA: 8.14 / 10	2023 - 2027
Indian Convent School, Bundi 12 th CBSE Percentage: 75 / 100	2022
Banyan Tree School, Amethi 10 th CBSE Percentage: 92.50 / 100	2020

AWARDS AND SCHOLARSHIPS

- Winner - Tech For Earth Competition, IIC BBDNIIT (2024)
- Little Einstein Award for Robotics and Technology Innovation (2017) - (Atal Innovation Mission)

PROJECTS

SafeSurf AI AI Cybersecurity Platform Team Size: 3 Key Skills: Tech Stack: React.js Node.js JavaScript APIs Project Link: https://safe-surf-ai-abyf.vercel.app/ Developed an AI-powered cybersecurity platform to detect phishing websites, suspicious emails, and scam messages. Integrated threat intelligence APIs for real-time analysis and security recommendations.	20 May, 2026 - 26 May, 2026
Kirana AI AI Inventory Management Platform Team Size: 1 Key Skills: Tech Stack: MERN Stack REST APIs Database Management Project Link: https://gameonixx.github.io/Kirana-AI/index.html Built a SaaS-based inventory management system for MSMEs and retail stores. Implemented inventory tracking, analytics dashboard, billing management, and AI-powered business insights.	
TalentBridge Placement & Recruitment Management System Team Size: 1 Key Skills: Tech Stack: React.js Node.js Express.js MongoDB JWT Authentication REST APIs Project Link: https://github.com/Gameonixx/TalentBridge/tree/main (Ongoing Project) Developing a full-stack recruitment management platform connecting students, recruiters, and placement administrators. Implemented role-based authentication, job posting, application tracking, candidate shortlisting, and recruitment workflow management.	12 Jun, 2026

ACHIEVEMENTS

- Hackathon Finalist - QuantCraft Hackathon, Galgotias University 2026
- Hackathon Finalist - Hack With Uttar Pradesh, Chandigarh University 2025
- Winner - Tech For Earth Competition organized by IIC BBDNIIT 2024
- Developed multiple full-stack software projects including TalentBridge, Kirana AI and SafeSurf AI.

SEMINARS / TRAININGS / WORKSHOPS

HCL Guvi AI Workshop Institute Name: HCL GUVI

01 Dec, 2026 - 16 Dec, 2026

Key Skills:

Generative AI Prompt Engineering Regression Models Artificial Neural Networks Linear Regression Logistic Regression

Successfully completed the HCL GUVI AI & Machine Learning Workshop, gaining foundational knowledge in Prompt Engineering, Neural Networks, Convolutional Neural Networks (CNNs), Regression Techniques, and Generative AI. Explored the fundamentals of machine learning model development, deep learning architectures, AI-driven content generation, and effective prompt design for Large Language Models (LLMs). Applied these concepts through hands-on exercises and practical demonstrations to understand real-world AI applications.

Python and Django Training

22 Sep, 2025 - 28 Nov, 2025

Institute Name: Lernovate Enterprices

Key Skills: Python Django FAST APIs

Developed Video Authenticator, a web-based application using Python and Django to verify the authenticity and integrity of digital video files. Implemented secure file upload, processing, and validation functionalities to detect potential tampering and ensure content reliability. The project provided hands-on experience in backend development, database management, user authentication, and web application design while addressing real-world challenges in digital media verification.

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

14 Sep, 2025 - 14 Oct, 2025

Institute Name: Oracle University

Key Skills: ML AI Generative AI Deep Learning NLP

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Completed comprehensive training in Artificial Intelligence, Machine Learning, Deep Learning, Generative AI, Large Language Models (LLMs), Natural Language Processing (NLP), Computer Vision, and Responsible AI. Gained foundational knowledge of ML workflows, model training and evaluation, data preparation, prompt engineering, and Oracle Cloud AI services for developing and deploying AI-driven solutions.

Java Training

07 Apr, 2025 - 30 May, 2025

Institute Name: Lernovate Enterprices

Key Skills: Java Data Structures Algorithms

Developed Video Authenticator, a web-based application using Python and Django to verify the authenticity and integrity of digital video files. Implemented secure file upload, processing, and validation functionalities to detect potential tampering and ensure content reliability. The project provided hands-on experience in backend development, database management, user authentication, and web application design while addressing real-world challenges in digital media verification.

Full Stack Web Development Workshop - Softpro India

16 Jun, 2024 - 21 Jun, 2024

Institute Name: Softpro India Computer Technologies (P) Ltd.

Key Skills: Java Javascript HTML5 CSS

Completed training covering modern web development concepts including frontend technologies, backend development fundamentals, and full-stack application development.

CO-CURRICULAR ACTIVITIES

- Participated in national-level hackathons focusing on software development, cybersecurity and AI-based solutions.
- Developed full-stack applications using modern web technologies.
- Participated in technical workshops and collaborative software development activities.

EXTRA CURRICULAR ACTIVITIES

- Founded and managed Oryze, a custom clothing brand focused on digital branding and product identity.
- Experience in UI/UX designing, graphic designing and digital content creation.
- Created technology-focused digital content and worked on creative projects.

PERSONAL INTERESTS / HOBBIES

- Exploring emerging technologies and building software products
- Problem solving and competitive programming
- UI/UX design and digital creativity
- Reading fantasy novels
- Content creation and video editing
- Making DIY products and Reassembling Tech gadgets

IMs

- WhatsApp - +91 6388079527

PERSONAL DETAILS

Gender: Male

Marital Status: Single

Current Address: H.NO.- 80, Alambagh-Patel nagar Colony,
Lucknow, 226005, Lucknow, Uttar Pradesh, India - 226005

Email: kavyasrivastava8414@gmail.com

Date of Birth: 25 Oct, 2004

Known Languages: English, Hindi

Permanent Address: H.NO-09, Vill= Rankapur,
Jagdishpur,Amethi, 227809, Amethi, Uttar Pradesh, India -
227809

Phone Number: +91-6388079527
