PROFESSIONAL SUMMARY

Computer Science undergraduate targeting Analyst roles with experience in data analytics, key metrics monitoring, business reporting, automation workflows, and dashboard development. Skilled in Excel, SQL, Python, and data tracking with hands-on experience preparing analytical reports, generating actionable insights, and building solutions for process optimization. Experienced in collaborating with teams, maintaining documentation, and developing data-driven applications.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Babu Banarasi Das Northern India Institute of Technology (BBDNIIT)

AKTU University

Expected 2027

Current CGPA : 8.14

SKILLS

Data Analytics & Reporting:	Excel, SQL, Data Analysis, KPI Tracking, Business Reporting, Performance Metrics Analysis, Dashboard Creation
Campaign & Business Analytics:	Ad Operations, CTR, CPC, CPM, Campaign Performance Analysis, Revenue Metrics, Forecasting, Data Tracking
Quality & Operations:	Quality Assurance, Documentation, Process Improvement, Collaboration
Programming & Automation:	Python, Java, JavaScript, REST APIs, Automation Workflows
Database & Visualization:	MySQL, MongoDB, Dashboard Creation, Data Visualization
Tools & Technologies:	Git, GitHub, VS Code, Postman, Figma

PROJECTS

Kirana AI | Business Analytics & Reporting Dashboard

[GitHub](#) | [Live Demo](#)

Tech Stack: MERN Stack, REST APIs, MongoDB, Analytics Dashboard

- Developed a data-driven analytics platform enabling retailers to monitor 500+ products, sales records, inventory performance, and operational KPIs.
- Designed reporting dashboards for tracking stock updates, revenue insights, and business metrics to improve decision-making.
- Automated inventory workflows using REST APIs, reducing manual tracking efforts and improving data accessibility.

SafeSurf AI | AI-Based Data Monitoring & Analysis Platform

[GitHub](#) | [Live Demo](#)

Tech Stack: MERN Stack, REST APIs, MongoDB, Analytics Dashboard

- Built an AI-powered analysis platform processing URLs, emails, and messages using 3+ APIs to identify security risks.
- Created automated workflows for data analysis, result tracking, and structured reporting.
- Designed dashboards with 10+ reusable components for visualization of threat scores and analysis results.

TalentBridge | Recruitment Analytics & Tracking System

[GitHub](#) | [Live Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs

- Created a data tracking platform supporting 3 user roles: students, recruiters, and administrators.
- Built reporting dashboards to monitor applications, candidate filtering, interviews, and recruitment progress.
- Maintained structured documentation and optimized workflows for smooth collaboration between different users.

PROFESSIONAL EXPERIENCE

Independent Brand Project - Oryze Clothing

- Created a digital brand project involving market research, audience analysis, and content strategy.
- Designed 20+ ad creatives and marketing assets focused on engagement and digital presentation.
- Managed creative documentation and improved understanding of digital campaigns and audience engagement."

ACHIEVEMENTS

Hackathon Finalist

2026

QuantCraft Hackathon, Galgotias University

Galgotia University

- Selected among top finalist teams from 1500+ participants for building an AI-based analytical solution.
- Delivered a functional prototype integrating APIs, automation workflows, reporting features, and insight generation.

Hackathon Finalist

2025

Hack With Uttar Pradesh, Chandigarh University

Chandigarh University

- Ranked finalist among 250+ teams by developing a technology-based solution within 24 hours.
- Collaborated with a 4-member team handling development, planning, testing, and final presentation.

Winner

2024

Tech For Earth Competition, IIC BBDNIIT

IIC BBDNIIT

- Secured 1st position by creating a platform supporting campaign creation, event hosting, and community participation features.
